

FOR IMMEDIATE RELEASE

JOHOR PORT INKS MARINE SERVICES AGREEMENT WITH PETRONAS LNG LTD

JOHOR BAHRU, 19 April 2019 – Johor Port Berhad (Johor Port), a member of MMC Group, signed a Marine Services Agreement with PETRONAS LNG Ltd (PLL), a subsidiary of Petroliaam Nasional Bhd (PETRONAS) at Renaissance Hotel, Johor Bahru.

The signing of the Marine Services Agreement by Johor Port Bhd and PPL enables the provisioning of marine services and attractive tariff for vessels that receive Gassing Up and Cooling Down (GUCD) services at PLL's Regasification Terminal Pengerang (RGTP). The GUCD is a specialised service of bringing the storage tanks on liquefied natural gas carrier (LNG) vessels to a natural environment and cooling it down to cryogenic temperature (minus 160 degrees Celcius). The GUCD process is a requirement for LNG vessels to ensure safe loading of the next LNG cargo.

The collaborative effort between Johor Port and PLL is hoped to encourage more vessel operators and owners to utilise the service at Pengerang terminal, taking advantage of its strategic location and close proximity to ship yards in Malaysia and Singapore.

Johor Port currently provides a range of marine services for all types of vessels including Tug and Pilotage, Berthing and Unberthing, Shifting, Oil Rig Movement / Oil Rig Positioning & Repositioning, Dockwise Offload and Onload, Ship to Ship Transfer, Dead Ship Tow, Anchoring and Lay-Up as well as Docking and Undocking of Very Large Cruise Carriers (VLCC).

“Johor Port has well-trained and experienced pilots to handle all types of vessels, and well equipped with supporting resources like tug boats, mooring boats and mooring gangs that are at par with other developed ports in the region,” said Shahrull Allam Shah Abdul Halim, Chief Executive Officer of Johor Port.

Johor Port has an existing working relationship with PETRONAS dating back to 2015 in the Material Off Loading Facility (MOLF) project in Teluk Ramunia and Tanjung Setapa. Johor Port is also currently operating and managing the PETRONAS Solid Product Terminal (SPT) in Pengerang which includes the provision of operating equipment, systems and manpower. The 25-year concession of the SPT operations granted to Johor Port is a clear sign of the Oil and Gas giant’s recognition and confidence in the port’s capability and commitment.

###

About Johor Port Berhad

Johor Port Berhad (Johor Port), a member of the MMC Group, is an integrated multi-purpose port facility located at the southern tip of Peninsular Malaysia, providing a comprehensive range of port services to meet the individual needs of customer. Commencing operation in 1977 as the original Southern Gateway Multi-Purpose Port in Malaysia, Johor Port currently operates a total area of 1,000 acres - 660 acres of which are designated as Free Zone.

With 24 berths and a total berthing length of 4.9km, the services and facilities within Johor Port include the Container Terminal, Bulk and Break Bulk Terminal, Liquid Terminal and Warehousing Facilities. As the first port in Malaysia to be accorded with the Free Zone status, Johor Port is the appointed Free Zone Authority for the management of its Free Zone area.

Johor Port is the largest Palm Oil terminal in the world and designated as an approved London Metal Exchange (LME) location since 2004. Johor Port is currently ranked 6 out of 35 in the world for LME Cargo. Johor Port is also one of the largest discharging points for rice and cocoa in Malaysia; and one of the biggest terminals in Malaysia for fertilisers and cement.

About MMC Corporation Berhad

MMC Corporation Berhad (MMC Group) is a leading utilities and infrastructure group with diversified businesses under three divisions, namely Ports and Logistics, Energy and Utilities, and Engineering.

Its key businesses under the Ports and Logistics division include the operations of Port of Tanjung Pelepas Sdn Bhd, Johor Port Berhad, Northport (Malaysia) Bhd, Penang Port Sdn Bhd and Kontena Nasional Berhad. Internationally, MMC has an associate stake in Red Sea Gateway Terminal Company Limited, a container port terminal within the Jeddah Islamic Port, Saudi Arabia.

Under the Energy & Utilities division, MMC Group is the single largest shareholder of both Malakoff Corporation Berhad and Gas Malaysia Berhad.

MMC Group's Engineering division has further established itself in the sector with a leading role as the Project Delivery Partner (PDP) and underground works package contractor for the 51km Klang Valley Mass Rapid Transit (KVMRT) Sungai Buloh-Kajang Line project and Sungai Buloh-Serdang-Putrajaya Line project. Prior to these projects, MMC Group has successfully completed the 329km Ipoh-Padang Besar Electrified Double Tracking project, as well as the innovative Stormwater Management and Road Tunnel (SMART) motorway project, the first-of-its-kind dual-purpose tunnel in the world.

MMC Group continues to make inroads in the construction industry, securing key civil engineering and infrastructure projects in the country namely the Langat Centralised Sewerage Treatment Plant, Langat 2 Water Treatment Plant, civil and infrastructure works for RAPID Pengerang Cogeneration Plant.

In other businesses, MMC Group owns Aliran Ihsan Resources Berhad, a water treatment plant operator and Senai Airport Terminal Services Sdn Bhd, the operator of Senai International Airport in Johor Bahru; a major aviation hub and the main air transportation gateway to Iskandar Malaysia. Additionally, MMC Group's Group Property arm manages close to 6,000 acres of industrial developments in Iskandar Malaysia, Johor and Kulim, Kedah, which include the Senai Airport City, Tanjung Bin Petrochemical & Maritime Industrial Centre (TBPMIC) and the Northern Technocity (NTC). The Senai Airport City, TBPMIC and NTC developments come under the ambit of Group Property's three operating companies – Senai Airport City Sdn Bhd, Seaport Worldwide Sdn Bhd and Northern Technocity Sdn Bhd respectively.
